

Third International Conference on Innovative Biology, Medicine, and Engineering (ICIBME 2015)

Grand Challenges for Medical Technology of Dreams

- Regenerative research and regenerative therapy, Cancer microenvironment,
Activation of the regional industries -

First International Conference on Innovative Education and Culture Art (ICIECA 2015)

Education for the Next Generation
from a viewpoint of the Transdisciplinarity

January 15, 2015 (Thu) – January 16 (Fri), 2015

Toyota Auditorium / Symposion, Nagoya University
Furo-cho, Chikusa-ku, Nagoya, Japan

CONFERENCE SCHEDULE

January 15, 2015 (Thu)

- Third International Conference on Innovative Biology, Medicine, and Engineering (ICIBME 2015)
- Symposium “*Effects of innovative medical technology on improvement in QOL and its safe use and security from a social viewpoint*”

January 16, 2015 (Fri)

- Third International Conference on Innovative Biology, Medicine, and Engineering (ICIBME 2015)
- First International Conference on Innovative Education and Culture Art (ICIECA 2015), Symposium “*Education for the next generation from a viewpoint of the transdisciplinarity*”

General Chair Prof. Yoshinobu Baba, Nagoya Univ.

Sponsored by International Academy of Innovative Biology Medicine and Engineering (IAIBME) , Nagoya University's FIRST Research Center for Innovative Nanobiodevices, Nagoya University Program for Leading Graduate Schools Integrative Graduate Education and Research Program in Green Natural Sciences

Supported by Aichi prefecture and Aichi Prefectural Board of Education (tentative)

Organized by Medical, Environment, Reproduction, Research Organization (MERRO)

RELATED EVENT:

Jan. 16, 2015 – Jan. 17, 2015

First Workshop for Young Researchers
organized by International Academy of Innovative Biology Medicine and Engineering (IAIBME)

INFORMATION:

Medical, Environment, Reproduction
Research Organization (MERRO)
